

"To Foster a Spirit of Sisterhood Among Teachers and To Promote the Highest Ideals of the Teaching Profession"

NSPDK, Inc., Gamma Mu Chapter Presents Teach A Rama: Fundamentals of a Flipped Classroom

The flipped classroom is a pedagogical approach that reverses the traditional structure of learning. Instead of the instructor lecturing in class and students completing "homework" (like practice problems or readings) afterward, the model works as follows:

Direct Instruction is Moved Outside of Class and Class Time is Dedicated to Active Learning. The in-person class session is transformed into a dynamic, interactive environment where the instructor guides students as they apply concepts.

New Community Interactive
Devotional is a tool that raises
awareness and introduces readers
to a higher level of understanding of
faith, disability, and purpose. It
allows them to interact with several
Scriptures, narratives, prayers, and
testimonies. Regardless of ability,
this devotional challenges its
readers to see opportunities rather
than barriers. It can be used as an
easy resource for personal study or
group discussion.
